

Foundation — no model outcome access

P00
Governance and
artifact contract

P01
Data and representation
freeze

P02
Split, policy support,
and regime freeze

Model development — PP-U-MIN; source-only selection

P03
Classical benchmark
under PP-U-MIN

P04
Deep ERM baseline
under PP-U-MIN

P05
Acquisition-aware
development

Evaluation — primary first; policy and target-access regimes separate

P06
Definitive PP-U-MIN
paired evaluation

P07
Target-access
adaptation

P08
Policy factorial
and robustness

P09
Narrow open-set
evaluation

P10
Representation, policy,
and failures

P11
RQ-wise inference and
Route A / B / C decision

P12
RQ-mapped TikZ / HTML
manuscript and validation

Solid arrows: required primary dependency.
Dashed arrows: secondary analysis after primary freeze.

Synthesis and publication freeze
